Work Experience

RUUF
Lead Designer
November 2022 — Present

Creating every experience people have with RUUF & paving the way so that everyone can have access clean energy.

Platanus
UX/UI Designer
February 2021 — November 2022

Established a methodology to integrate design into an all-developer team, created a design team from scratch, coached 10+ junior level designers & designed and/or supervised more than 20 web/mobile applications for client companies and startups.

Bupry
Full-Stack Dev Jr
July 2020 — February 2021

Software development for AI startup, working with Python & Django, to design, create and develop a new user interface that is easy use, understand, and is eye catching as well as responsive.

Academia

UNIVERSIDAD ADOLFO IBÁÑEZ

Adolfo Ibáñez University

Investigation Assistant
April 2020 — December 2020

Supporting profesor Ricardo Seguel in a research project for the university's Ingeniería 2030 plan. It was research on blockchain technologies, where I had to create a complete book for future courses on cryptography and blockchain.

Project Coordinator
2020

In a restructuring of teaching format, I was in charge of designing, coordinating and assigning tasks to create a gamification system for the course Differential Equations & Optimization.

Community Manager
2020

Responsible for keeping the iUAI Smart Center (Computer Science post-grad lab) website updated with news, articles & more.

Teaching Assistant
2018 — 2020

- Advanced Topics of Networks
- Data Structure and Algorithms
- Cryptography and Blockchain
- Data Mining

- **Graduate Diploma in Design, Technology & Innovation**
  Adolfo Ibáñez University

CalARTS

Specialization in UX/UI Design & Graphic Design
California Institute of Arts

CODERHOUSE

Certification in UX/UI Design
Coderhouse

Volunteering

Panam Games Santiago — 2023

I participated at the Panam Games in Santiago, Chile as a volunteer. I got certified as an Olympic and Paralympic volunteer, as well as getting certified as a doping volunteer. It was an amazing experience to be a part of, as a native of the country where it is being held at!

Niñas Pro & Bichito — 2022

I worked in communications at Niñas Pro, an NGO providing free programming and electronics workshops for girls, aiming to empower them through coding education. I handled image, marketing, and digital campaigns. Additionally, I volunteered as a mentor at Bichito, a similar organization teaching programming to high school students.

Animalia UAI — 2021

An internal organization of my *Alma Mater*, Adolfo Ibáñez University, that is concerned with the rescue, rehabilitation and reintegration of dogs and cats. Specially, but not excluded to, pets left at or near the university's main campus. Animalia UAI is in charge of doing check-ups, vaccinating them, sterilizing them, looking for temporary and permanent homes, among many other things. I have also participated in being a temporary foster for puppies as well as taking care of keeping the shelter clean, with food, water, etc.
